The Coming Collapse Of China

The Coming Collapse of China - Wikipedia

The Coming Collapse of China is a book by Gordon G Chang, published in 2001, in which he argues that the Communist Party of China is the root cause of many of the People's Republic of China's problems and will cause its collapse in the near future He claimed that the hidden nonperforming loans of the "Big Four" Chinese State banks would likely bring down China's financial system and its communist government in 2006, 2011, 2012, 2016, and 2017

Will China Collapse: A Review, Assessment and Outlook

“Will China collapse?” is a question that has been repeated asked since the fall of communism in Eastern Europe and the Soviet Union in 1991 At first, most scholars approached this question politically, comparing the Soviet system and China’s model of so-called “socialism with Chinese characteristics” Since the Soviet collapse, China

A New Order

Coming Collapse of China “It’s a new world order of increased chaos” There hasn’t been this much change, or talk of change, since the end of the Cold War nearly 30 years ago, which opened up commercial opportunities for capital-rich western compa-nies These days, the catalysts, Chang says, are China and Russia The onetime superpower
